REPUBLICAN CITY CONVENTION-The Lecompton Constitution.-The Republican City Convention mat at the headquarters in Joralemon street last evening; H. N. Holt, esq., in the Chair. The call of the roll of Delegates being dispensed with, a discussion ensued as to the practicability of nominating Auditor, Controller, City Treasurer and Justice of the Peace for the Fourth District. Several Delegates stated that it was not probable that the law authorizing the election of financial officers would be passed, and it was thereupon desided not to nominate. The Convention also concluded not to nominate a candidate for Justice of the Fourth District. A statement was made to the effect that the report that the Republican General Committee had recommended Col. Jesse C. Smith for Police Commissioner, in place of Mr. Stranahan, was incorrect-that so such resolution had been proposed; in fact, that there was no meeting of the Committee on the evening the resolution was reported to have passed. The following resolutions were offered and adopted without

so expressed by the action of their Legislature by defending the constitutional rights of the people of Kanesa against the tyra misal policy of the Administration.

After the passage of these resolutions the Convention adjourned, subject to the call of the Chairman.

At a meeting of the citizens of the Ninth Ward, held on Wednesday evening, the following-named persons were peminated to be supported at the ensuing election: Fer Alderman, John M. Phelps; for Supervisor, Hamilton A. Weed; for Assessor, Isaac Brinckerhoff; for Censtable, John Danielson.

Dr. Franklin Tuthill, the Republican nominee for Alderman of the Seventh Ward, has declined on account of not having resided the required length of time in Brooklyn to render him eligible. The Convention will nominate another man.

THE REMAINS OF A MAMMOTH EXHUMED. - The workmen amployed by the Brooklyn Water Works Company, while engaged yesterday in excavating the upper part of Baisley's mill-pond, about two miles below Jamaica, came upon the remains of some vast animal, which have caused no little speculation among the citizens of that place. The bones are of immense size, very much decayed. Pieces of rib bones were found measuring nine inches broad. Four teeth were brought up to Jamisca for inspection, one measuring 171 mehes around, with roots 6; to 7 inches long, and, although partially decayed at the roots, weighing 32 Our informant saw one said to be the smallet; it was nearly square, measuring 4] inches by 34 inches, serrated, partly worn. It is hoped that this netice will induce some scientific person to proceed to the spot and examine these remains. There are four or five wagon leads of bones lying exposed, and crumbling rapidly since exposure to the air.

CARD.

To the Republican Nominating Convention of the Seconth Ward, Brockium.

GENTLEMEN: I am notified that you have done me the bonor to nominate me as Alderman of your Ward. For the bonor you have conferred upon me, allow me to assure you of my sincere thanks. The party you represent I have long been identified with; the principles that you profees I believe in, and your propers to success were never more flattering than for the coming election. It would be a pleasure to me in any way to servey, though my business connections are such, that in the capacity of Aldermen, I could not serve you without great personal meetings. But, however much I might desire to santifice for you, there is in the "Act to Consolidate the Cities of Brookiyn and Williamsburgh," passed April 7, 1806, a prevision which should be prevented in Section 3 of title 2 reads as follows: "Every "Alderman shall, at the time of his election, be an elector of the "Ward in which he shall be chosen, and shall have been a resident of the city for at least three years immediately previous "thereto."

Though born on your Jeland, I have not had the pleasure of a

"dent of the city for at least three years immension of the three."

Though born on your Island, I have not had the pleasure of a seddence in this city the full length of the term required by the above section. Of course you will admit the propriety and he measure of my declining your finitering nomination. Satisfied that your hallows will be thrown for a gentleman far more capable of representing you, and consident that the intelligent voters of the Seventh Ward will unite to elect him. I remain yours &c.

THE OFFAL DEFOT AT THE FOOT OF SOUTH ELEVRATH STREET.—Mears L. R. Cornell & Co., the offal contractors
for the City of Brooklyn, are about removing their present depot
at the foot of South Eleventh street, to some more eligible and
less objectionable location; but the precise location of the docks is
not yet fixed upon. During the year ending Jamary 1, 1858, the
carcasses of 1,014 horses, 564 cows, 1,206 dogs, 400 of which were
obtained from the dog pound, 129 hope, 152 pigs, 64 skinned cows,
20 goats, 16 hefers, 71 burnt horses, 20 caives, 16 sheep, 2 colts,
1 packes, 2 buils, 1 oz, 140 cats, 1 for. These carcasses have
been surverted into material for manure; the hard bonce into
they placed, the Seeh and ecft horse into bone manure, the offal
and blood into manure. The hidee are suited and tanged, the fet

is given to the scap maters, and the bode are compared into movine of potasses. About 100 curgoes of 00 tons each of night includes been sent to Burren Island and convented into "unmovinisted infen."

The contract Setween the City of Brooklyn and Mr. Cornell was made in February, 16.6, in that year about one half the half.

NATURALIZATION .- Judge Morris of the County

Habras Corrus,—A little boy, named Edward W. Clark, was brought before Judge Morris yesteriasy on a writ of habras corpus, and his discharse from the Triam Institution, at Frachusin, applied for. It appears the boy was a populin Public School No. 13, of which Mr. A. B. Clark is Priceipal. Mr. Clark is also an Alderman of the Sixth Ward. The lad absented himself from school on several occasions and Mr. Clark is his capacity as Alderman, had him arraigned and chammitted him to the above Institution, on the charge of being a treast. The mother of the boy said out the writ, and in answer thereto Mr. Clark claimed authority as a committing magistrate, by virtue of his office of Alderman, to dispose of such cases. He referred to exclion twenty, tille two, of the charter, in support of his authority, but reserved his opinion as to juris liction until he had an opportunity to examine the commitment, which had not been produced. He decided, however, that the order of commitment was irrecular, and therefore void, whereupon the how was discharred. The mother of the boy Clark was brought before Justice Conwell shortly after, on the charge of a sault upon Miss Dx, who is tensiber of the class to which the by being ed, in School No. 13. It appeared that she testified before the Alderman to the fact that the top played truant. The mother, decenirs her the cause of her son's impresonment, applied some out-of-the-way epithets toward Miss Dx, in Court street, the day previous, for which she was acreated. The Justice reprimanded Mrs. Clark, and discharred from the Truant Institution yeared when provided the part of the class to which the boy being of the behavior. Eight boys, altorether, have been freed from the Ifraint Institution since its organization, for similar reasons.

ITEMS OF NEWS.

From Our Special Correspondent. LAWRENCE, K. T., March 22, 1858.

There has been little of note to chronicle for the past two weeks. It appears that the "radicals" have carried the election in the great majority of districts throughout the Territory. From many of the counties the delegates are expressly instructed against the "Minneola" scheme. The Convention will assemble there to-morrow afternoon. I think it is likely that it will immediately adjourn to this place or Topeka. A great effort is being made by the Minneola Town Company to retain them. "Shares" will be freely offered to tempt weak members, but I think that the delegates will be likely to resist the seductive influence of these temptations.

1 think it is likely that Gen. Lane will be elected

President of the Convention, and that the Topeka Constitution will be taken as a basis, and referred to the Committees for such amendments as they may desire to make.

Denver still refuses to recognize the legality of the election law. He keeps very quiet, and very adroitly steers clear of many of the difficulties that beset his predecessors by keeping his mouth shut. Lane issued an address in reply to Denver's advisa-tory proclamation, in which "one J. W. Denver" receives rather severe trimming. It was supposed that this paper of Gen. Lane's would provoke a duel. Gov. Denver, however, affects to take no notice of it, which is the most sensible thing be

I think it would be rather an old political sores. adventurous experiment these times. The Convention will not be likely to remain together more than two weeks-perhaps not so long. The State elec-tion will be in May. Emigration begins to arrive in the Territory. A steamboat is plying on the Kansas River.

COUNTY AND TOWNSHIP ELECTIONS. From Our Special Correspondent.

LAWRENCE, K. T., March 23, 1858. Yesterday was fixed by act of the late Territorial Legislature for county elections in certain counties, and township elections where the people determined on township organization. Much uncertainty has existed in many parts of the Territory in relation to this election, and this uncertainty may prevent them in several localities from taking advantage of it. The laws have not been printed, and the precise shape in which it passed was not known. So far as I have heard, the Pro-Slavery men en-

so far as I have neard, the Pro-Slavery men en-tered into these election contests: and thus, for the first time, there may be said to have been something like an election. The result will doubtless be to throw the power into the hands of the Free-State settlers, except in a few counties where the old offi-cers will retain their places.

At Lecompton the Pro-Slavery men are very At Lecompton the Pro-Slavery men are very advoit. Knowing that they had been and certainly would be beaten if they attempted any contest, they attended the Free-State Nominating Convention in Lecompton township, and professed themselves de Convention 12 of Michigan Central R. R. 634

sirous to act in harmony, and ins no contest. All they asked was to have sen two out of eight or ten of the petty offices to all. This was cheertuily con-creded to them, and it was supposed that the "lion and the hand" were thus going to "his down to-pether," by voting the same ticket. This the Free-State men did in good faith; but a disappointed Free-State aspirant for nomination, of the "Demo-cratic," hind went to the Legonmannia and told eratic' kind, went to the Lecomptonies and told them that one of the names on this joint licket was a regular Garrisonian Abolitionist. Some of the Free-State bolters had got out one of these nominally Free-State "Democrats," who are qualified for either side, and the Lecomptonites and the "anti-Lecompton" Democracy of Lecompton went off on

this bolt, doing it secretly.

It is supposed that they have thus defeated one of the test men on the ticket, so far as character and qualification are concerned. Had the Free-State men known this, the two Pro-Slavery names on the ticket would have been "scratched" to death. I mention these facts not so much for their individual

mention these facts not so much for the importance as for what they illustrate.

The Spring season is much in advance of what it was last year. The grass is already beginning to look green. The Minnie Belle got here to-day, on her second trip up Kansas River. There is a large feet second trip up Kansas Kiver. There is a large fleet of steamboats on the Missouri this season. I learn that the first boat charged \$15 for passage from St. Louis to the ports of this Territory. It is now down to \$12, and will be \$10, if not \$5, very soon. Freights are already low—50 cents, and I have heard even 40 cents, per 100 pounds. Freights within a month will be 30 cents per 100 pounds, from St. Louis to the ports in the Territory.

There is one mistake which travelers frequently make, and which they are misled into making by the beat agents. When they get to St. Louis, they go on board and state their destination as "Kansas."
In this way the officers and agents set them down
for Kansas City, Mo., which is below the mouth of
the Kansas River. Now, while conveyances do run from this Missouri town into the Territory, still the expense is greater, the road travel much longer, and the road infinitely worse. The emigrant is charged \$5 from Kansas City to Lawrence, while from points in the Territory which are nearer, and where the road is better, it is only half that much. From Quindaro and Delaware, the charge is only \$2 50. From Quindaro to Lawrence, there is a regular back, and that is the best point to disem-bark. From Leavenworth and Wyandot, the fare bark. From Leavenworth and Wyandot, the late is \$3; and these are the next best places, except Delaware. From Delaware there will be a regular stage, and that is the cheapest point to which to send freight into the Territory. While it is only 50 cents per 100 pounds from Delaware to Lawrence, it is \$1 from Kansas City, and a much worse road, over which articles are liable to be broken. The fare and freightage on the Missouri River is just the same to all the above-mentioned points as to Kansas City. Emigrants will find that it is their interest to note this. Emigrants to the north-east portion of the Territory should proceed to Sumner or to Doniphan. Sumner is a radical Free-State town, and is the only town on the upper river that can be said to be really in the hauds of Eastern people.

CARTAIN LEONBARDT SHOT -Capt. Leonbardt, who has figured somewhat in the disturbance, in Kansas was shot on Thursday night, the 18th inst., at Geary City. The St. Joseph Journal gives the following account of the effair:
"There was a ball at Geary City, and Charles Leon

"There was a ball at Geary City, and Charles Leonhardt, accompanied by a friend, entered the room with the avowed determination of 'breaking up the ball.' He commenced operations by firing a pistol ball through the ceiling, which narrowly missed a young lady in the room above. He tree fired another ball through a window, but finding that pistol shooting did not disturb the equanimity of the Kansas beaus and belles, he retired doubtless in disgust.

"The next scene of his exploits was Porter's grocery. After putting a hole through Mr. Porter's stovepipe, by way of introducing himself, he walked up to a card table where several persons were engaged playing, and unceremoniously swept off all the 'documents.' At a slight remonstrance from the clerk, he slapped that gentleman on the face with a bandle of wratping paper. The clerk immediately drew a revolver and shot at him twice, both balls taking effect in his right arm and side, and then seized a shot guo, which he was prevented from firing by the interfsrence of parties standing by. Leonhardt, who was at this time in the doorway, again commenced firing and ausceeded in slightly wounding his antagonist. time in the doorway, again commenced firing and sus-ceeded in slightly wounding his antagonist.

"Leonhardt was taken to the printing office, where

he lay in a critical condition. All the parties were Free-State men, with the single exception of the friend who first entered the ball room with Leonhardt."

Before the Board, this morning, the market for

stocks was quite firm at an advance from the closing

prices of yesterday, and at the opening of business at

Stock Exchange there was a strong a sociation among parties who have been sellers of stocks for some days

past to supply themselves with cash stock for imme-

diate delivery, and New-York Central, the first of the

setive stock reached on the list, opened at an advance

of about ! I cent above the closing quatations of last evening, and under fair purchases by the bulls, rallied and closed very firm at about 85?

an advance of i from opening sales. Erie opened quite dull and heavy, but a large demand from the shorts, and the efforts of parties interested to have the market rise, soon carried the stock higher, and with sales of about 1,700 shares it closed in demand at 212 an advance of 2 4 cent from yesterday's close og price and of 4 & cent from the opening sales of the morning n Reading the movement was not active, and it closed quite steady at about 461, with registered sales of 1,000 shares. There were no prominent operators in this stock, which for the time seems quite neglected by both speculators for a rise or a decline. Michigan Central declined about 11 & cant from last previous sales, and with sales of about 200 shares, closed dull. In Hudson River, the movement was quite an active one, and at the opening of the call here was a strong disposition to sell, but all the stock offered at the opening prices was taken, and under pirited purchases by some prominent operators who have for some days past been large purchasers of this stock, the price a ivanced a fraction, and at the close of the call the shares were in demand at 1 * cent higher than opening prices. The short interest in this stock appears to be quite a large one, and it is in quite active request for delivery. Harlem was dull, with sales of only 400 shares. Michigan further declited | P cent from the closing price of yesterday, and closed steady, with small sales; Panama was one of the firmest stocks on the list, and was in demand at about the same quotations as for several days past. Galena and Chicago was pressed for sale, but its friends freely took all the stock offered at about 90%, and at the close of the cell there was a steady demand at | @ | W cent advance from opening quotations. This stock is a favorite for investment, and is very firmly supported. The sales of Chicago and Rock Island amounted to about 700 shares, of which 300 were sellers' options. and at the close the price was firm at about

73;. The movement in Cleveland and Tole to was an unimportant one, and at the close of the call it was quite dull at a decline of 1 P cent from last previous sales. At the close of the busicess of the First Board the market rallied slightly, but the amount of transactions was quite small. Between the Boards there was an active inquiry for New-York Central cash stock for delivery, and in some instances brokers who had contracts maturing were obliged to buy stock at something in advance of the regular

price to make good their promises.

At the Second Board the market was quite active, and prices throughout the list advanced from the quotations of the morning. The whole market closed strong, and after the Second Board, transactions were at a comewhat higher figure than those on the printed

The Bond sales of the day comprise \$27,000 Missouri State 6s, and \$37,000 Railroad Bonds. Among the latter securities we notice a strong demand for Ls Crosse and Milwaukee Land Grand Bonds, but as orders were based upon the quotation of yesterday, there was a sale of only \$1,000. The closing prices in the street were for Erie, 221; Reading, 47; Toledo, 431; New York Central, 864; Rock Island, 74; Michigan Southern, 221: Hudson River, 297: Galena, 91, &c.

In Foreign Exchange the business has been small at

about previous quotations.

THE LA CROSSE AND MILWAUKEE RAILROAD COMPANY.

IMPORTANT ACTION OF THE LEGISLATURE OF WISCONSIN-THE LAND GRANT-FEELING TOWARD THE
COMPANY.

To the Editor of The N. Y. Tribune.

Six: Enclosed you will find a copy of a bill which has passed both Houses of our Legislature, and will become a law, beyond any doubt. So many of the stockholders of the La Crosse and Milwaukee Railroad Company are scattered throughout the Eastern States, that it becomes a matter of justice to them that they should be put upon their guard as to their action in the d speeal of proxies for the coming election. The bill enclosed postpones the election of Directors about one month beyond the time now designated, and, as will be seen, makes ther and very stringent provisionsextraordinary ones, it must be confused, but thought to be called for by the circur stances of the case.

A word in relation to the lands granted to the Company, in regard to which subject the people in the East seem to be greatly befogged. The Company has received no patents to any lands, and has but a conditional right to them. By the terms of the law of 1856, the first condition upon which the Company was Totals 30

to receive lands was the completion of twenty miles of road; but it was expressly provided that, " for the purpose of estimating the lands," the commencing point should be Madison, and also that the Company should complete the road from Mattion to Portuge City, and from Columbias to Portuge City, by the last of December, 1858. The Company has as yet done literally nothing toward the fulfillment of this condition—has not built a mile of road within the families of the condition. It has gone on with its line from Portion to the condition. Bashford late in December a certificate to the Secretary of the Interior that it has completed forty miles of road. The present Executive takes a different view of his duty in the premises, and, holding that the Company has not fulfilled, and shows no intention to mildly, the conditions above maried, has requested a

untill, the conditions above named, has requested a suspension of action at Washington, which suspension has been granted. As the lands must first be parented to the State, and then be decided to the Company, you may see what is the precise condition of the lands claimed as belonging to the Company.

There is not, and it should be understood that there is not, any bestility entertained by the Governor or the Legislature toward this important enterprise. On the contrary, all wish it well, and regard its completion as of var importance to the State. Its route is one of the very best in the country, and its revenues must be very great. But this Land Grant has been its curse. The enorm ous issues of bands used in corrupting Congressmen and legislators of this State at d Minnesota, and for its horde of hangers on, as well as in private speculations of directors, has caused an intense feeling against the operators in all this villainy, and unless they can be driven away entirely from the conocilis. they can be driven away entirely from the conocils and control of the compacy, it will not be surprising if the grant is taken from it. If reasonably bonast and indicatous men can be allowed to control, all men will be satisfied whom it is an object to satisfy.

The publicity given by THE TRIBLES to the included law will not Fastern stockholders on their

closed law, will put Eastern stockholders on their grand as to the use which they make of their provises. Mautsex, Wis., March 77, 1762.
